

Give the Gift of Life.

Build your resume and gain valuable experience by helping Donate Life Northwest raise awareness about organ, eye and tissue donation in your high school.

- Almost **100,000** men, women and children in the United States are currently waiting for an organ transplant.
- Thousands more could benefit from a tissue transplant.
- **18** people every day die waiting for an organ transplant.
- One organ and tissue donor **can save or enhance the lives of more than 50 people.**

Give Life. Take Action.

Senior Project and Volunteer Opportunities: A Great Way to Get Involved

There are numerous ways for students to get involved with Donate Life Northwest and provide public education on donation and transplantation. Many students invent their own unique way of getting involved and we welcome their creativity! Here are some examples:

- Organize a "Donor Awareness Day" at school
- Plan an activity or competition for a school assembly
- Distribute Registry information at a school blood drive
- Enlist businesses to join our Community Champions program
- Display a Threads of Life quilt at school
- Invite a Personal Story Speaker to the classroom
- Submit an article on donation and transplantation to the school newspaper

You can spend as many or as little hours as you can as a volunteer for Donate Life Northwest. Let us know how much time you have and we will let you know how you can get involved!
