

**100,000 people in the U.S.
need an organ transplant to save their lives.**

YOU CAN HELP with a simple, no-cost action!

Become a Donate Life Northwest *Workplace Partner* Help and save lives by increasing the number of registered organ donors. This no-cost program, developed in partnership with U.S. Dept. of Health and Human Services (DHHS), has proven effective across the U.S.

Participate with three simple steps:

- **Educate:** Using your internal communications (email, newsletters, staff meetings, employee orientations), give your employees/colleagues the information to make a personal decision about organ, eye and tissue donation and how to register. Donate Life Northwest will provide the information.
- **Give 5. Save Lives!** Announce specific days/times when employees are authorized to sign up as donors online at work. Online registration is an equally powerful alternative to the donor code on a driver's license. In less than **5 minutes** one person can save or enhance more than **50 lives!**
- **Post** a link on your internet/intranet to the Oregon and Washington donor registries. Donate Life Northwest will provide the web banner.

The Need is Urgent!

- More than 100,000 people in the U.S. await an organ transplant to save their lives. 2,500 people in the Pacific Northwest are on the organ transplant waiting list.
- Every day, 18 people die waiting for an organ transplant, and 6 people are removed from the waiting list because they are too sick to undergo transplant surgery.
- Every donor counts! **1 donor** can save or enhance more than **50 lives.**

When you demonstrate your proactive community citizenship and serve as a leader in your business community by becoming a *Workplace Partner*, Donate Life Northwest will thank you by listing your business on our web site. You also will receive a certificate of participation.

To become a partner or for more information, contact Judith Trujillo at trujillo@ohsu.edu or 503.494.7888 or 800.452.1369.

Your support of the Donor Registry is critical to those who wait.

Give Life. Take Action!

P.S. Our goal is to increase the number of donor registrations by 10% in the next two years, resulting in an increase of a potential 100 donors.
