

Charlene Wilson Needs a Kidney

Charlene Wilson, elementary school teacher for 35 years, needs a kidney. She has polycystic kidney disease (PKD), is stage 4, and will soon be doing dialysis. She was accepted 2 years ago at OHSU in Portland, Oregon for a kidney transplant. She could however accept a living kidney donor which would prevent her from going on dialysis, give her a better quality kidney, and reduce the risk of kidney transplant failure.

If you are interested in learning more about living kidney donation and possibly becoming a donor for Charlene please go to:

www.OHSULivingDonor.org or kidney4char@gmail.com

Additional helpful facts:

- You CAN live a healthy long life with one kidney
- All tests, surgery, and hospital stay are covered by my insurance
- You could spend up to 3 days in the hospital
- Blood type doesn't matter as there is a paired exchange program at OHSU

Thank you for considering living kidney donation. And, please help spread the word.
