

To Live means to Give

By Traci Neal

words transfer to hearts|
heal the broken| bones
gain back mobility| what
teaches humans to value
a body| involvement is
the 'eye' in evidence| give
great energy into internal
members| fill a person's
systems with priceless
parts| wipe tears with
tissue that will never run
out| create hope as a
cover to coddle the world
in| be open to the empty|
share pieces of one's soul|
watch poetry stitch human
storms| helping hands are
what make us whole|
